**Date of birth:** 26 – 03 – 1999

**Objective:** Software Engineering internship

I have experience in software development through student jobs at Aarhus University, the Danish Technological Institute, and Schibsted, where I have worked with IT-support, web development, and Robotic Process Automation. I am seeking an internship as a software engineer, where I can apply and further develop my skills in software development, databases, and system integration. I have experience with backend, frontend, and embedded development and have also worked on personal projects, which can be found in my portfolio.

## Education

Aarhus University	Software Technology	September 2023 – January 2027
Business Academy Aarhus	Computer Science (AP)	February 2021 – June 2023
Aarhus Gymnasium	Higher Technical Exam (HTX)	August 2014 – June 2017
Tranbjergskolen	Primary School	August 2004 – June 2014

## Work Experience

<b>IT-employee</b>	August 2024 – Present
Department of Electrical and Computer Engineering, Aarhus University	Aarhus, Denmark
<ul style="list-style-type: none"><li>• Ensuring secure and stable operation of internal servers across Aarhus University.</li><li>• Collaborating with researchers and AU IT on technical projects.</li><li>• Contributing to the migration of the university's server infrastructure to Oracle Cloud to improve scalability, performance, and security.</li><li>• Optimizing and maintaining existing IT infrastructure with a focus on efficiency and stability.</li></ul>	

## Internship – Backend Developer

Schibsted

January 2023 – March 2023

Aarhus, Denmark

- Worked with C#, MSSQL, Dapper, Microservices, WebAPI, RabbitMQ, design patterns, NUnit, and Git in relation to backend development.

## Student Assistant

Danish Technological Institute

May 2022 – January 2023

Aarhus, Denmark

- Responsible for designing and developing a price calculation webapplication in collaboration with the IT department, which has to be integrated with the companys task management system using TypeScript.
- Responsible for introducing a Computer Science (AP) intern to the project.

## Student Assistant

Schibsted

June 2021 – January 2025

Aarhus, Denmark

- Automated ad publishing and updating on DBA using Robotic Process Automation.
- Developed internal dashboards for Schibsted's internal use using APIs and ReactJS.

## Technical Skills

---

**Software architecture and design:** OOP, TDD, Design patterns, Clean code & SOLID, UML & ER modeling.

**Languages:** C, C++, C#, Java, JavaScript, SQL, HTML5, CSS3.

**Technologies:** MongoDB, Express, React, Node.js.

**Developer Tools:** Windows, Git, Github, IntelliJ, Rider, DataGrip, Visual Studio Code, Docker.

## Personal Competencies

---

**Realist:** I prioritize setting realistic goals and strive to achieve them.

**Purposeful:** I focus on accomplishing goals efficiently and with care.

**Helpful:** I am always willing to lend a hand to others in need.

## Languages

---

**Danish:** Native or bilingual proficiency.

**English:** Full professional proficiency.

**Urdu:** Native or bilingual proficiency.
